The 2020 Fund: Sustain the Movement

In 2017 alone, the Universal Access Project collective - including partners like Planned Parenthood, PAI, CARE, and Guttmacher Institute - safeguarded $600 million in U.S. aid, which is estimated to provide 25 million women and couples with family planning. We’ve now protected this life-saving funding for fiscal year 2018, too, but the fight continues. Unprecedented efforts are under way to roll back long-standing U.S. leadership on international reproductive health and rights. We will not go back.

We have made strong progress, but we have a long road ahead of us – and we need your help. We invite change-making philanthropists to join our 2020 Fund to protect and further this movement and ensure that every girl and every woman has the right to determine her own future. Major gifts from individuals and foundations provide a pool of critical funds that support strategic, high-impact advocacy by the best-in-class organizations reaching key decision makers on these issues on Capitol Hill.

You can help advance our innovative and impactful community effort at multiple levels:
